ATIF ALI
FRONT END DEVELOPER
FRESHER

ABOUT MYSELF

Asalam O Alikum, sir,

First of all, thank you for providing me with this opportunity to introduce myself.

My name is Atif Ali, and I hail from Sawabi. I am currently a computer science student who has successfully completed my first year at a Government Higher Secondary School in Dagai. I come from a financially disadvantaged background, as my father works as a laborer. I am a fresh Front End Developer, and I am eagerly looking forward to learning the latest and most cutting-edge technologies in the field of web development. My interests lie in continuous self-improvement, web design patterns, and best practices.

II have experience in various programming languages, including HTML5, CSS3, JavaScript (ES6), BOOTSTRAP5, Tailwind CSS, JQUERY, and React JS.

My future plan is to become a full-stack developer.

Beyond the realm of technology, I have a deep affection for the Quran Pak and am proud to be a hafiz of the Quran. I am fully committed to working diligently, and I sincerely request the opportunity to prove my dedication. Thank you."

EDUCATION

2022 to 2023
Metric
2020 to 2022
First Year
And my Second-Year Start.

MY PROJECTS:-

I have successfully completed over 25 web projects, all of which I have personally created. These projects are available on my GitHub account, accessible through the following link: https://github.com/Atifkhan7. You are welcome to explore and review all of my work there."
